

Bella Uno

PHOTOGRAPHY

Hello

Congratulations on your new bundle of joy!

I am Linda, the owner of Bella Uno Photography.

My warm and inviting in-home studio offers a very relaxing experience for you and your baby.

With over 20 years of professional photography experience with weddings, families, children and high school seniors, photographing babies has got to be my favorite of all.

The studio is filled with all of the ribbons, bows, blankets, baskets and wraps for your new arrival. But feel free to bring anything you think might work well with the session.

I am as patient as they come so if your baby needs feedings, diaper changes or a quiet moment alone with mommy, there is no rush. The session lasts as long as it takes to get the job done.

After your session, you will return to see a beautifully crafted slideshow of your babies moments captured.

I will help and guide you through making your selections and the products that will adorn them.

I look forward to meeting you and your new love!
